

## E-Design Guide

A bespoke kitchen design, without  
leaving your home

E-design is the simplest and fastest way for busy families to have their bespoke kitchen designed and all the products sourced without investing the time in the traditional design process.

- Scott Holcombe  
founder & lead designer

# The Process

## STEP 1: PURCHASE YOUR DESIGN PACKAGE

When you're ready to allow us to design your space for you, purchase the package by clicking the link on our website.

## STEP 2: CHECK YOUR INBOX

Within 1 business day, you will receive a Welcome email, which explains the details of the process and contains the link to schedule your discovery call with our team.

## STEP 3: DISCOVERY CALL

We will call you at the scheduled time to discuss the scope of your project, talk about your family and style, and set your expectations for the design process.

## STEP 4: COMPLETE YOUR PREPARATIONS LIST

After our call, you will create a Pinterest board, take photos and videos of your space, and take detailed measurements. You can measure by hand, or we've partnered with PLNAR app to give you access to scan your space with your phone.

## STEP 5: RECEIVE YOUR BESPOKE DESIGN

Within 10 business days, you will receive your redesigned space, complete with beautiful 3D renderings, floor plans, elevations, and a complete sourcing list for all the products included in your design.

We know you'll be thrilled with the package you receive! We can't wait to see your space transformed!

# The Goods

Your package will include:

- + 1 consult call with our Certified Designers
- + 1 set of 3D Renderings
- + 1 set of floor plans and elevations
- + A comprehensive sourcing list with clickable links (for purchase, where available)
  - + Cabinets
  - + Countertop
  - + Hardware
  - + Lighting
  - + Appliances
  - + Furniture
  - + Sink
  - + Faucet
- + Detailed Cabinet List for purchase on your own or with us
- + Recommended Internal Cabinet Accessories List
- + Suggested decorative accent items

Now, you're ready to renovate!

**\$1750**

Modern design technology enables you to visualize your space in 3D in such amazing, realistic detail! This empowers homeowners to make buying decisions on large ticket products and entire projects in a completely virtual environment. It's truly revolutionary!

- **Scott Holcombe**  
founder & lead designer

Q: DO I HAVE TO BUY EACH ITEM YOU SPECIFY?

A: Absolutely not! Our list is full of recommendations from our tried and true vendors that we suggest for your space. But, it's your home! Buy what you want, and don't purchase the rest. Or, if you find similar products you can substitute for those we recommend, go for it!

Q: CAN I BUY CABINETS FROM YOU?

A: Yes! If you decide that you want to implement your kitchen or bath design with us, we can quote it out for you. We have partnered with a local manufacturer to produce a beautiful line of cabinetry (see the details below). Best of all, we ship all across the US.

Q: ARE DESIGN PACKAGES REFUNDABLE?

A: Our packages are non-refundable because our design team spends dozens of hours drawing and curating products custom fit for your space.

Q: CAN I GIVE DESIGN PACKAGE AS A GIFT?

A: Yes! Make a note at the comments section at checkout and we will mail out a Design Package certificate to you!

We've curated a line of custom cabinetry made up of our absolute favorite colors, textures, and styles to share with you! You can experience our award-winning design team and get our signature style no matter where you live.
